

Why Pro-Life?

* Nowhere is the abortion experience more painfully felt than in the area of a man's role expectation to be responsible and to protect his loved ones. The results of a national poll indicate that three out of four respondents still believe that the ideal man is one who will fight to protect his family. Yet how can one protect, when one is not allowed by law to be involved in a life or death decision?

****If you or someone you know is a "forgotten father", we can help. Contact andy@newcreationrefuge.org.*

* Did you know that in local offices here in this area, there are respected doctors administering pills and injections to women as a "service" that will induce a chemical abortion for their "unwanted pregnancy". As the upcoming election approaches, in addition to writing to your legislator's who cannot simply change the law about abortions, would you consider writing to your doctor about not performing this "service", and if he does perform this service, please consider finding a doctor that does not. (We know some!) The only way we can try to effect change is to hit the money bag's of the very persons who perform the service.

-If you would like to know more about chemical abortions and other "alternatives" to the typical clinic, please contact us.

* The woman on the typical pill has the possibility of having one induced abortion for every year she is on the pill. Are you taking a birth control or a contraceptive? If you would like to know more about the difference, please contact Jaime. We are considering a mini-seminar on this subject due to all the questions we have been getting. We welcome the questions and want to give you the information as efficiently as possible. Let us know if you would be interested in this seminar.

* There are legislators trying to pass a law that would make "comfort rooms" legal in every state. A "comfort room" is where they put the babies that survived an abortion and they leave them there to die alone, refusing them medical treatment that could save their lives. Write and vote accordingly.
